ET3000

The ET3000 is a two-way radio device for control stations and installation in vehicles. The device is smart, safe, professional, secure and substantially encrypted. The device works on the cellular network and other networks such as: G2 / G3 / G4 / WIFI / LTE. provides instant communication with wide coverage in both national and international connectivity, enables group calls and is compatible with several platforms with clear sound quality. The device also has a front camera and the ability to connect to any type of IP camera. Suitable for organizations and companies interested in improving their productivity and efficiency.

ET3000

Specifications & Feature	
Operating System	Android 7.0 Nougat
Hardware Platform	
Network Type	Support 2G, 3G(WCDMA, TD-SCDMA, C2K), 4G(FDD LTE/TDD LTE)
RAM	1GB RAM + 8GB ROM
Display	TFT 3.97” IPS, 480 x 800
GPS	GPS, AGPS & GLONASS, dual-mode positioning
WiFi	802.11 a/b/g/n, dual-band
Bluetooth	BT4.0 and BT2.1 + EDR
Sensor	Accelerometer, Compass and Gyroscope
USB Interface	Micro USB 2.0
SIM card	Micro-SIM single card
Celling Antenna	For 2G, 3G, 4G, BNC interface
Speaker	36mm ϕ 2.0 @ 90db
Microphone	Sensitivity -42dB
Front Camera	2 million pixels camera
Video Quality	Support 720P video recording
Indicator LED	Single 3-colors LED
Handheld-Mic Interface	RJ45 plug
Working Environment	Temperature -20 °C - 80 °C, humidity 20% - 90%
Weight	530g
Size	211.2mm x 74.3mm x 78.5mm
