

PD78X/78XG

Versatile Digital Portable Two-Way Radio

Large-size HD Transflective Color Display

Superior Digital Voice

PD78X/78XG Higher Efficiency, Richer Experience As a product built to the DMR standard, PD78X/78XG (PD78XG is the model with GPS) is endowed with ergonomic design, allround digital functions and remarkable quality to increase your management efficiency and enable you to be responsive to emergent situations.

# Applications

Public Safety Forest Industry Public Utility Business Transportation (port, airport, railway, etc.) Manufacturing

# Product Highlights

#### Ergonomic Design

The large color display is visible even under strong sunlight.

The globally patented industrial and antenna design ensure convenient

operation and remarkable GPS performance.

#### Reliable Quality

PD78X/78XG is strictly compliant with MIL-STD-810 C/D/E/F/G and IP67

standards, ensuring outstanding performance even in harsh environments.

#### Superior Voice

With narrowband codec and digital error-correction technologies,

PD78X/78XG delivers superior voice under noisy environments.

The AGC technology maintains a suitable voice volume,

### and the built-in 1W speaker further ensures clear and crisp voice. **Durable Battery**

Compared with an analog radio, PD78X/78XG can obtain an extra 40% operation time.

#### Dual-slot Pseudo Trunk

The free slot can be allocated to enhance frequency efficiency and timely response under emergency.

#### Secure Communication

PD78X/78XG provides advanced encryption (such as 256-bit encryption

algorithm) and scrambler features to secure communication.

#### Versatile Services

In addition to voice services,  $\mathsf{PD78X}/\mathsf{78XG}$  offers data services and selectable

features, such as Text Message, Scan, Emergency, Man Down (optional),

Vibration, Auto Registration, High-speed Data Transmission, Lone Worker etc.
Secondary Development

The third party partner can develop applications via accessory port to

extend radio functionality.

#### Option Board Interface

PD78X/78XG supports option board interface. This allow third party partner to develop various applications to interconnect with the radio. They could control the radio to expand its functionalities including, voice recording,

encryption etc. Please refer to the API Partner Programmed for more information.

### Features

#### Dual Modes (Analog+Digital)

 $\mathsf{PD78X}/\mathsf{78XG}$  can operate in either analog or digital mode. It is compatible with

the prevalent analog system, ensuring a smooth analog-to-digital transition.

- Versatile Voice Calls PD78X/78XG supports various voice call types, including Private Call, Group Call ,
- All Call and Emergency Call.
- Positioning Service
   PD78XG can display positioning information and transmits positioning message.
- Data Services

 $\mathsf{PD78X}/\mathsf{78XG}$  can send private and group test message. The third party

application can control the radio via API (GPS, Radio Registration Services,

Call Control, Telemetry, Data Transfer).
 Various Analog Signaling Types

PD78X/78XG supports various analog signals (HDC1200, DTMF phone,

2-Tone and 5-Tone), various squelch signals (CTCSS/CDCSS), providing

higher expansion capacity to the analog system.
 Supplementary Services

PD78X/78XG supports supplementary services of Radio Check, Remote Monitor, Call Alert, Radio Enable and Radio Disable.

#### Multiple Languages

PD78X/78XG supports 15 languages, including English, English, Simplified Chinese, Traditional Chinese, Thai, Arabic, Farsi, Korean, Portuguese, Italian,

- Russian, Polish, Turkish, French, Spanish and German.
- PD78X/78XG supports One Touch features that comprise of Text Message, Voice Calls and Supplementary Services.

#### Scan

 $\mathsf{PD78X}/\mathsf{78XG}$  supports scanning of pure analog voice and signaling, pure Digital

voice and data, and also mix mode scan that comprise of Analog and Digital activities.

#### Roaming

PD78X/78XG supports automatic roaming among all sites in a IP Multi-site Connect system.

Voice and Data Safety

PD78X/78XG supports Analog scrambling, and digital encryption using Advanced Encryption Standard (AES) and ARCFOUR (ARC4) encryption methodology to secure both

### voice and data services Analog/Digital Telephone Interconnect (via DTMF signaling)

PD78X/78XG supports simplex voice communications between radio and telephone users. It allows a radio user to make a telephone call; or a telephone user to make either a Group or Private call to radio users. This feature utilizes the Commercial Off The Shelf (COTS) Analog Phone Patch boxes and a Plain Old

Telephone Service (POTS) line to connect the radio users to the Corporate Office **Software Upgradeable** Phone System (PBX) or Public Switched Telephone Network (PSTN). New features can be enabled via software upgrade. Moreover, PD78X/78XG can

switch between MPT and DMR trunking modes through license.

# **Standard Accessories**

Li-Ion Battery Power Adapter MCU Rapid-rate Charger Belt Clip Leather Strap Antenna
